Context

The importance of digital and creative competences has been magnified in current times. For many young people life is fundamentally digital, while some of them are on the other side of the digital divide.

However, digital youth work has a lot to offer for all. Digitality is a convenient tool, an appealing activity and important content in youth work.

The Aim of the training is to provide creative and digital tools to empower Youth Workers and Erasmus+ Youth in Action (E+ YiA) and the European Solidarity Corps(ESC) practitioners to understand how, creative learning and technology learning can be integrated into youth work practice.

The main objectives of "Creative & Tech Learning Mix"

- *To get acquaintance and practice with SMART and Digital Youth Work;
- * To get acquaintance and practice with Creative Learning and Non-Formal Learning;
- * To get to know and experiment different creative learning practices like Graphic Facilitation, Storytelling, Creativity and Design Thinking;
- * To get to know and experiment different digital Learning practices like SLI.DO, KAHOOT, TRELO, Basecamp and other Learning online applications;
- * To be equipped with practices to transfer to the field of Youth Work, Digital Youth Work, Participation, Citizenship and Youth Empowerment;
- * To exchange good practices of Digital Youth Work, Creative Youth Work, youth participation, empowerment and develop new ideas to implement on daily Youth Practice of all participants;
- * Encourage the participants to work together in other Key Actions of the E+ Youth in Action Programme and European Solidarity Corps;
